

The Queensland Alliance for Agriculture and Food Innovation (QAAFI) is a research institute of the University of Queensland (UQ), supported by the Queensland Government.

As one of the few research-intensive universities worldwide located in a subtropical environment, UQ is a global leader in agriculture and food science research in subtropical and tropical production systems.

Agriculture-related research at UQ is consistently ranked among the best in the world.

QAAFI's vision is to improve the productivity, competitiveness and sustainability of tropical and subtropical food, fibre and agribusiness industries.
