

Genomics Field Day

Beef producers and industry representatives are invited to attend a beef genomics field day hosted by Maynard Cattle Company.

This is an opportunity to discuss the value and use of Northern Genomics Project GBVs with leading beef operators, including: Michael Flynn, Andrew MacTaggart, Peter Mahony and Geoff Maynard

Presentations by:

- **Professor Ben Hayes**,
Director Centre for Animal Science, QAAFI,
The University of Queensland.
- **Dr Geoffry Fordyce**,
Cattle veterinarian and beef researcher from
Charters Towers.

Network and meet with other industry participants from AACo, Blackbox Co, AgForce, CQU, and MLA.

DATE: Thursday 25 August 2022
LOCATION: Belmont Research Station,
Rockhampton
TIME: 8.30am – 3.00pm
Morning tea and lunch provided
