

QAAFI STRATEGIC PLAN 2022-2026

VISION: Enable Queensland and Australia to be the globally recognised leader in high impact subtropical and tropical agrifood research and knowledge leadership, advancing the competitiveness and sustainability of agriculture and food systems.

PURPOSE: To solve major challenges in a rapidly changing world by conducting and leading collaborative research, innovation and capacity building through trusted partnerships in agriculture, food, and nutrition.

STRATEGIC DRIVERS AND THEMES

Strategic Drivers – Aligning our five drivers of success:

1. Sharp focus on innovation, industry outcomes and local and global opportunities (for Queensland, Australia, and the region).
2. World-class multidisciplinary research excellence with critical mass delivering relevant and actionable solutions.
3. Being a strategy and team-driven Institute unleashing individual brilliance.
4. Leveraging across the full capacity of our alliance partners, UQ and DAF.
5. Strengthening the development of industry-engaged world-class higher degree students and researchers.

Strategic Themes – QAAFI will build on its four discipline Centres (Crop Science, Animal Science, Horticultural Science and Nutrition & Food Sciences) to establish cross-cutting themes that focus on solutions and impact:

1. Predictive Agriculture for Improved Productivity and Value
2. Climate Resilient and Environmentally Sustainable Agriculture
3. Healthy Agriculture, Food and Communities

CRITICAL SUCCESS FACTORS AND KEY ENABLERS
